Our children need guidance to ensure their online experience will be safe. Your child has easy access to a very public place, which is quickly changing. Keeping current on new ways that social media is being used by our children is a daunting task. This workshop will provide an overview of the jargon, the risk, and how to explain the importance of internet safety to your child.

Objectives of the presentation include:

- to educate about safe online engagement
- to view the landscape of social media sites & applications
- to increase awareness of your child's social media presence
- to provide some strategies to keep your child safe

We hope you take advantage of this great educational opportunity!
